

Straight Stitch Practice Sheet

First! Make sure the needle is not threaded. Set the machine to straight stitch. You can practice different lengths and widths. Lift the foot & needle up. Place sheet and make sure the line on sheet is in line with the needle. Once in place put foot down and lower needle onto line. Slowly feed the page through the machine until you reach the end of the line. When you reach the end take your foot off the peddle, lift foot and needle.

Turn the page to feed through the machine.

Practice lines for straight stitching, consisting of multiple horizontal lines across the page.
